

Complete Platform Specification & Master Blueprint

Zero-Brokerage Direct Owner-to-Tenant Real Estate Platform

Hubli-Dharwad, Karnataka, India • Nationwide Expansion Roadmap

Rentlo Technologies Private Limited • privacy@rentlo.in

1. What is Rentlo?

Rentlo is a **direct, verified, zero-brokerage real estate platform** that eliminates brokers entirely from the property rental and sale discovery process. Instead of paying a broker **■5,000–■50,000+** in commission, tenants and buyers pay a tiny one-time fee to directly access verified owner contact details, WhatsApp links, GPS coordinates, and in-platform legal lease tools.

Core Mission: Connect verified property owners directly with genuine tenants and buyers — transparently, quickly, and cheaply.

Current Market: Hubli–Dharwad (Karnataka, India) with a national expansion roadmap.

2. User Roles

■ Owner (Property Lister)

Lists residential, PG/hostel, and commercial properties. Buys category-specific Listing Credit Passes. Manages leads, visits, occupancy (PG), chat, and lease agreements via a mobile-first Owner Portal.

■ Buyer / Tenant (Seeker)

Browses all listings for free. Pays a small Unlock Fee to reveal owner phone, WhatsApp, and GPS pin. Accesses My Unlocks history, saved searches, lease agreement generator, and VIP early alerts.

■ Field Agent (Sub-User)

Admin-created staff who physically verify properties and create listings on behalf of owners. Requires owner OTP/selfie consent (if not owner self-registering). Earns commissions; must pass KYC review.

■■ Admin / Super Admin

Full platform control — moderation, pricing, gateways, branding, analytics, commission rules, user management, audit logs. Sub-Admins get moderation-only access; cannot change global settings.

3. Property Categories

Category	Types	Credit Pass	Special Features
Residential	Houses, floors, villas, bungalows	Residential Pass	BHK type, floor, furnishing, rent, deposit
Apartment & PG / Hostel	Flats (1BHK–5BHK+), PG hostels	Apartment & PG Pass	Room type configurator (Single/Double/Triple/4+), live bed tracker, PG rules, per-room rent
Commercial	Shops, offices, showrooms, warehouses	Commercial Pass	Carpet area, built-up area, cabins, power backup, parking

4. Business & Revenue Model

Rentlo operates a **dual-sided marketplace** model — both property seekers and property listers pay a small, transparent fee, with zero broker involvement.

Revenue Stream 1 — Buyer/Tenant Unlock Fees

Plan	Price	Unlocks	Extras
Single Unlock	■14	1 contact	Basic owner contact unlock
Starter Pass	■39	3 contacts	Saves ■3 vs singles
Smart Pass ■	■79	6 contacts	1 Free Lease Agreement (■299 value)
Pro Hunter Pass ■	■129	10 contacts	3 Free Lease Agreements + VIP 2hr Early Alert

Revenue Stream 2 — Owner Listing Credit Passes

Each listing category has its own tiered pass pricing. Credits are consumed only when a listing goes **live** — drafts are free.

Category	1 Listing	3 Pack	6 Pack (90d)	10 Pack (180d)
Residential	■99	■259	■499	■859
Apartment & PG	■149	■349	■649	■999
Commercial	■199	■449	■799	■1,199
Combo Bundle	—	—	—	15% Discount

Revenue Stream 3 — Agent Commission Earnings

Field agents earn commissions for verified listings. Admin configures rules: **Flat per listing** (fixed ■ per verified listing), **Percentage of revenue** (% cut of pass price), or **Custom per-agent/per-city rules**.

Revenue Stream 4 — Legal E-Stamp Agreements (Phase 2)

■499 per digitally e-stamped rental agreement (via Digio). Smart Pass / Pro Pass holders get these free as part of their plan.

5. Full Feature Breakdown

5.1 Buyer / Tenant Features

Feature	Description
Property Search	Filter by city, locality, type, rent range, furnishing, floor, parking
Map View	Approximate location on map before unlock; exact GPS pin after unlock
Advanced Filters	Pet-friendly, gender restriction (PG), power backup, facing, BHK type
Saved Searches	Save criteria; get alerts when matching listings go live
Unlock System	Pay once → get owner phone, WhatsApp link, exact GPS pin
My Unlocks	Lifetime history of all unlocked properties with full contact details
Lease Agreement Generator	Fill details, add custom rules, digital signatures, printable PDF
Property Feedback	Rate listing accuracy after contacting owner (feeds fraud detection)
PWA / Mobile App	Installable on Android/iOS; offline support; native app feel
VIP Early Access	Pro Pass holders see new listings 2 hours before the public
WhatsApp Share	One-tap WhatsApp share of property listing
Google Maps Nav	Direct 'Open in Maps' navigation to unlocked property location
Multi-language	Full English + Kannada (ಕನ್ನಡ) UI via i18n
City SEO Pages	Dedicated landing pages per city (/rent/hubli, /rent/dharwad) for SEO

5.2 Owner Features

Feature	Description
New Listing Wizard	Multi-step form with auto-save, progress bar, 10+ steps
Multi-Image Upload	Multiple photos per listing; Cloudinary-hosted and optimized
Image Slideshow	Auto-sliding gallery on owner dashboard property cards
PG Room Configurator	Set room types, room count, per-room rent, available beds
Live Bed Tracker	Real-time display of occupied vs. available beds per PG property
Lead Pipeline	Full CRM: Interested → Visited → Shortlisted → Rented, with notes
Visit Scheduling	Tenants request visits; owner approves or reschedules
Owner Chat	Real-time messaging with interested buyers/tenants
Status Control	Toggle: Live / Under Negotiation / Rented / Archived
Lease Agreement Creator	Generate lease PDFs with digital signature capture for tenants
Credit Balance View	See remaining credits, active passes, expiry dates

Feature	Description
Buy Credits In-App	Purchase passes via Razorpay or UPI directly in the dashboard
Self-Registration	Owner lists their own property — no verification consent needed
Agent-Assisted Listing	Agent creates listing with owner OTP or selfie consent

5.3 Admin / Super Admin Features

Feature	Description
Admin Dashboard	Listings count, pending approvals, PG occupancy rate, earnings chart
Moderation Queue	Review and Approve/Reject listings one by one with reasons
Property List	Full searchable/filterable list of all listings with status control
CRM Panel	View all owners, buyers, agents with full activity history
Agent Management	Create agents, toggle active/inactive status, view KYC documents
Agent KYC Review	Approve or reject field agent identity document submissions
Commission Rules	Set flat/% commission per agent, per city with custom overrides
Agent Payouts	Track earnings owed; mark payouts as paid
Earnings Analytics	Revenue charts by period, category, agent (Recharts area graphs)
UTR Verification	Manually verify UPI payments submitted by owners/buyers
Fraud Flags	Buyer feedback tracking; flagged agents reviewed for action
Sub-Admin Management	Create limited-access moderation accounts
Location Manager	Add/edit cities and localities for dropdowns
Platform Settings	Pricing, gateways, OTP config, branding, themes — all dynamic
Audit Log	Complete timestamped log of all platform settings changes

6. Admin-Configurable Platform Settings

Setting Group	What Can Be Configured
Pricing	Buyer unlock fee, all buyer pass prices, all owner pass prices by category & pack, combo discount %, pass validity durations, owner onboarding fee
Payment Gateways	Razorpay (API key + webhook secret) or Direct UPI; configurable independently per user type (Buyer / Owner / Agent / Admin)
Authentication / OTP	OTP on login vs. signup toggle per role; global OTP bypass for testing; owner listing verification method (OTP or Selfie)
Branding	Company name, company logo URL
Theme Engine	18 premium preset themes across 6 design styles (see below)
E-Stamp (Phase 2)	Enable/disable, price, Digio API key & secret
SMS / OTP Provider	Provider selection (Fast2SMS / MSG91 / Twilio), API key, sender ID, template ID

6.1 Theme Engine — 18 Preset Themes

Style Group	Available Themes
Minimal Style	Emerald Minimal, Royal Sapphire Indigo, Obsidian Cyber Dark
Bento Grid Style	Cyber Obsidian, Soft Slate, Royal Amber
Luxury Typography	Classic Champagne, Forest Regency, Warm Terracotta
Neo-Brutalism	Retro Pop Pink, Lemon Brutalism, Sky Blueprint
Glassmorphism	Arctic Glass, Dusk Smoke, Amethyst Haze
Neumorphic	Cream Neumorphic, Steel Neumorphic, Sage Neumorphic

7. Security Measures

7.1 Authentication & Session Security

Measure	Detail
HttpOnly JWT Cookies	Session tokens stored in JS-inaccessible HttpOnly cookies; no localStorage exposure
SameSite=Lax Policy	CSRF protection baked into cookie configuration
OTP Verification	SMS OTP required at registration (configurable per role)
Password Hashing	Bcrypt hashing; minimum 6-character enforcement
Role-Based Access Control	4 distinct roles; every API endpoint and frontend route checks role before allowing access
Super Admin Restriction	Platform Settings restricted exclusively to admin role; sub-admins are blocked

7.2 Data Protection — DPDP Act 2023 Compliance

Measure	Detail
PII Minimization	Only mobile, email, and property data collected — no unnecessary personal data
Explicit Consent Recording	DPDP v1.0 consent checkbox with timestamp logged at every registration
Data Erasure Rights	Users can request personal data deletion via automated atomic erasure
Data Correction Rights	Users can update profile and property details at any time
Grievance Officer	privacy@rentlo.in published in in-app Privacy Policy (v1.0)
TLS 1.3 In Transit	All API calls transmitted over HTTPS with TLS 1.3
AES-256 At Rest	Database PII fields encrypted at rest using AES-256

7.3 Payment Security

Measure	Detail
Razorpay Webhook Validation	Webhook HMAC signature verified server-side before any credit is activated
UTR Manual Verification	UPI payments activated only after admin manually confirms bank UTR number
No Card Data Stored	All card and UPI data handled exclusively by Razorpay (PCI-DSS Level 1 compliant)
Payment Bypass Logging	Dev/demo payment bypass mode is flagged separately and logged in audit trail

7.4 Fraud Prevention & Trust

Measure	Detail
Agent KYC Review	Field agents submit identity documents reviewed and approved by admin before activation
Owner Consent for Agent Listings	If anyone other than the owner creates a listing, owner OTP consent or selfie is required
Fraud Flag System	Buyer feedback on listing accuracy is tracked per listing/agent; flagged users are reviewed
Listing Moderation Queue	Every new listing goes through admin review before going live; no auto-approval
Admin Audit Trail	All platform settings changes logged with timestamp, actor, and before/after values

8. Technology Stack

Frontend

Component	Technology
Framework	React 18 (Vite build tool)
Routing	React Router v6
Styling	Tailwind CSS + CSS Custom Properties (dynamic theme system)
Icons	Google Material Symbols Outlined
Charts	Recharts (admin analytics area graphs)
Payments	Razorpay JS SDK
Digital Signatures	react-signature-canvas (lease agreements)
Image Hosting	Cloudinary (optimized, auto-resized)
Internationalization	i18next (English + Kannada 🇮🇳🇮🇳🇮🇳🇮🇳🇮🇳)
PWA	Service Worker v10 + Web Manifest (installable, offline-capable)
Deployment	Vercel (forced HTTPS, global CDN)

Backend

Component	Technology
Framework	Django + Django REST Framework
Database	PostgreSQL
Authentication	JWT tokens (HttpOnly cookies, SameSite=Lax)
File Storage	Cloudinary
Payment Processing	Razorpay (webhook-verified) + Direct UPI (UTR manual verification)

Component	Technology
OTP / SMS	Configurable — Fast2SMS / MSG91 / Twilio
E-Stamp (Phase 2)	Digio API integration
Rate Limiting	Custom throttling per endpoint (accounts/throttling.py)

9. Property Listing Lifecycle (End-to-End)

Step	Action
1	Owner registers via Owner Portal Login (OTP verified on signup)
2	Owner buys a Listing Credit Pass matching the property category
3	Owner completes the New Listing Wizard (10+ steps with auto-save)
4	If agent-assisted: Owner provides OTP consent or live selfie photo
5	Listing submitted → enters Admin Moderation Queue (status: pending_review)
6	Admin reviews: Approve (listing goes live) or Reject (with written reason)
7	Approved listing visible to all buyers on the platform (status: live)
8	Buyer browses freely using advanced filters and map view
9	Buyer pays unlock fee (■14 single or uses pass credits)
10	Buyer instantly receives: owner phone, WhatsApp link, exact GPS coordinates
11	Buyer contacts owner directly — zero broker, zero commission
12	Optionally: Both parties generate and digitally sign a Lease Agreement
13	Owner marks property as 'Rented' → listing credit consumed, property archived

10. Listing Statuses

Status	Meaning
draft	Created but not yet submitted for review; no credit consumed
pending_review	Submitted and awaiting admin approval
live	Approved; visible to all buyers and tenants
under_negotiation	Owner paused new unlocks; actively negotiating with a tenant
rented	Property successfully rented/sold; listing closed
archived	Removed from public view; data retained for owner records
rejected	Admin rejected with reason; owner can edit and resubmit

11. Analytics & Reporting

Admin gets real-time analytics including:

- Total listings by category (Residential / Apartment & PG / Commercial)
- Pending approvals count with drill-down to individual listings
- PG occupancy rate — % filled across all registered hostels

- Total platform earnings with area chart visualization over selectable time periods
- Per-agent commission earnings breakdown and payout status
- Unlock volume trends — buyer activity metrics
- Revenue split: buyer pass income vs. owner credit pass income
- UTR verification queue — pending and completed UPI payment verifications
- Fraud flag counts per user/agent — with sortable severity ranking

12. Mobile Experience (PWA)

- Installable from Chrome/Safari on Android and iOS via 'Add to Home Screen'
- Offline support — cached public pages function without internet connection
- Mobile-first Owner Portal with bottom navigation bar (Home, Leads, Visits, Chat, Profile)
- Sticky headers and full-screen modals for native app feel
- Service Worker with versioned cache (v10) and automatic cache invalidation
- Theme-color in mobile browser address bar matches platform brand
- beforeinstallprompt event handled for controlled PWA install prompts

13. Competitive Advantage

Problem (Traditional Market)	Rentlo's Solution
Brokers charge 1–2 months rent commission	Tenants pay ₹14–₹129 total — 99% cheaper
Fake and unverified listings everywhere	Every listing passes admin moderation before going live
Owner contact hidden behind brokers	1-tap unlock; direct phone, WhatsApp, GPS access
No legal documentation support	In-platform lease agreement generator with digital signatures
Agents inflate rent prices for commission	Zero agent/broker involvement in the pricing chain
PG management is chaotic and manual	Built-in room configurator and live bed tracker
No post-listing accountability	Buyer feedback system + fraud flag tracking per agent
Owner verification unclear	Admin moderation queue + DPDP Act consent logging
Platform locked to one language	Full English + Kannada (ಕನ್ನಡ) UI — expandable to more

14. Future Roadmap (Phase 2+)

Phase	Feature	Description
Phase 2	E-Stamp Integration	Fully digital, legally valid rental agreements via Digio API
Phase 2	National Expansion	Roll out to Bangalore, Pune, Hyderabad, Chennai
Phase 2	Commercial Sub-types	Co-working spaces, warehouses, retail — with dedicated fields
Phase 3	Owner Verification Badges	Aadhaar-linked verified owner identity badges on listings
Phase 3	Tenant Credit Score	Rental history + on-time payment behavior scoring for tenants
Phase 3	AI Property Matching	ML-based recommendation engine personalised per buyer
Phase 3	Owner Native App	Dedicated iOS/Android native app for property owners
